

# Assessment Tool

Complete this assessment tool before your next visit with your family doctor. It can help your doctor assess your child's bedwetting and see if a specialist referral may be needed.

	<b>Record your answer here</b>	<b>For your doctor's use</b>
How many nights a week does your child wet the bed?		
How old is your child?		
Does your child have leakages during the day (e.g., wet underwear)? (Y/N)		
Does your child pee more than 8 times a day?		
Does your child often have a sudden urge to urinate? (Y/N)		
Does your child drink before bed? (if yes, record how much)		
Does your child drink during the night? (if yes, record how much)		

Adapted from the Practical consensus guidelines for the management of enuresis (2012).
